Health and Safety Policy

POLICY STATEMENT

1. This notice sets out the statement of the School in relation to the Health and Safety at Work Act 1974 ("the Act") and is issued in accordance with Section 2(3) of that Act which requires employers to prepare a written statement of their general policy, organisation arrangements for health, safety and welfare at work, to keep it up to date and bring it to the notice of their employees. Both employers and employees have responsibilities placed upon them by the Act. In this statement, "employees", "personnel" or "staff" includes all individuals who work in the School, whether or not they are employed by the School.
2. The board of governors of the School (the "Board") attaches great importance to the health, safety and welfare at work of all its employees and other users, particularly pupils, parents and visitors.
3. The Head Teacher is responsible for Health and Safety and reports to the Board.
4. The Board, through the Head Teacher, will take all such steps as are reasonably practicable to meet its health and safety objectives, which are:
 - to maintain safe and healthy working places and systems of work and to protect all employees, pupils and others including the public in so far as they come into contact with foreseeable work hazards;
 - to provide and maintain a safe and healthy teaching environment for all employees and pupils with adequate facilities and arrangements for their welfare;
 - to provide sufficient information, instruction, training and supervision to enable personnel to avoid hazards and contribute positively to their own safety and health at work;
 - to develop an understanding of risk control and safety awareness amongst all employees and pupils and, as a result of this, create individual responsibility for health and safety at all levels and be responsive to internal and external change; see separate Risk Assessments Policy.
 - where vehicles are used, to ensure that they are well maintained, safe and without risk to health;
 - to provide machinery and equipment that is safe and without risk to health;
 - to provide articles and substances for use at work that are safe when properly used, stored, handled and transported;
 - to provide suitable safety clothing and equipment when required by regulation or approval code of practice or when considered necessary by the Head Teacher;
 - to provide any other suitable protection, where appropriate, where staff might be at risk;
 - To ensure control of emissions into the atmosphere of toxic, noxious or offensive substances;
 - To control effectively the activity of all outside contractors when on School premises.
5. The Board and the Head Teacher will co-operate fully in the appointment of **Safety Representatives** and will provide them where necessary with sufficient facilities and training to carry out this task. The Board and the Head Teacher will also co-operate in the setting up of a **Health and Safety Committee**. In this regard the Board reminds staff of their own duties under Section 7 of the Act to take care of their own safety and that of others,

and to co-operate with the Board and the Head Teacher so as to enable them to carry out their responsibilities successfully.

6. The Board is committed to providing adequate resources to ensure its health and safety objectives under this Policy are met.
7. The School is conscious of the external environment that may be affected by its activities and will pay full regard to the implications of the **Environmental Protection Act 1990** and, in particular, the duty of care as regards waste.
8. The Board is aware of, and will meet, the requirements under the Children Act 2004 (as amended) regarding fire provisions and ensuring that staff and pupils are aware of the School's Health and Safety policies and practices. It is the intention of the School to follow the advice given in 'Keeping Children Safe in Education' and to provide the details required under section 109(1) and (2) of the Education and Skills Act 2008.
9. The Board recognises the guidance contained in '**Managing Health and Safety in Schools**' and '**Health and Safety Guidance for School Governors and Members of School Boards**', both prepared by the Education Service Advisory Committee of the Health & Safety Commission, and intend to follow the good practice recommendations they make.
10. **The board ensures that the School assesses risks of all activities and puts in place measures to manage those risks.** The School will provide and maintain **written Risk Assessments** of the risks to the health and safety of its pupils while they are at school, employees whilst they are at work and others who may be affected, as required by the Management of Health and Safety at Work Regulations 1999. See Risk Assessments Policy. The Board recognises both the Management of H&S Regulations 1999 and the [DfE guidance of February 2014](#) (the latter advice replaces HASPEV 1998) and intends to follow the recommendations it makes.
11. The Board considers that this Health & Safety Policy is an integral element of the overall School's business plan and other resource policies.
12. A copy of this statement will be issued to all employees. It will be reviewed, added to or modified from time to time and may be supplemented in appropriate cases by further statements relating to the work of particular classes or groups.
